

MIDAS # 3198
JEWETT POND

WATERFORD TWP. OXFORD CO., MAINE

AREA 32 ACRES

JEWETT POND

Waterford Twp., Oxford Co.
U.S.G.S. North Waterford, Me. (7.5')

Fishes

Smallmouth bass
Yellow perch
Chain pickerel

Minnows
Golden shiner
Hornpout (bullhead)
Pumpkinseed sunfish

Physical Characteristics

Area - 32 acres

Maximum depth - 41 feet

Temperatures:

Surface - 82°F

30 feet - 46°F

Principal fisheries: Smallmouth bass and chain pickerel

Jewett Pond, one of the Five Kezar Ponds, has an oxygen deficiency below 20 feet which precludes the management for coldwater fish species. Smallmouth bass, chain pickerel and yellow perch are providing a very good fishery at this time. Chain pickerel in excess of 22 inches are quite common.

There is no public access to Jewett Pond. Access is limited to permissive trespass from the Lovell Road.

Surveyed - September 1947
